A scene at the beach
A hundred infants
I bend over the bed of each one of them...
Another side of Korczak

Critique of child-unfriendliness

"How can you live under the same roof with the likes of him?"
The practice of patience, or overcoming impatience

the children's court: a "republican" way of living together

the letterbox -- educating for patience
No saint
No time
No patience
Conclusion:

Although many educators have a lot of patience, impatience is always around the corner. And that is okay. Unless it goes over in to violence. Even a great educator like Korczak could be very impatient. That is a sobering but also a soothing thought. And it also makes him more human.
